

On substance, our bill would create the presumption that the computer-assisted implementation of an analog-world business method is obvious and thus is not patentable. In these cases, the burden would be on the applicant to rebut the presumption of obviousness.

On procedure, we would add new protections at the beginning and at the end of the current process. Unfortunately, the public rarely knows when the PTO is evaluating a proposed business method patent application, and thus has no opportunity to bring prior art and other information to the attention of a patent examiner or to argue that the statutory criteria for the award of a patent is for other reasons not met before it is too late to do any good. We, therefore, would require the PTO to give the public at large an opportunity early in the patent review process to submit prior art information and evidence that the claimed invention is already in public use or is obvious. In addition, if asked, the PTO would be required to conduct a proceeding comparable to the discretionary public use proceeding already on the books.

At the end of the process, we would establish an opposition procedure so that the public at large would have one additional opportunity to challenge the award of a business method patent short of having to file a lawsuit. Decisions in these proceedings would be made by an administrative opposition judge chosen from a panel of examiners with special expertise in evaluating business method patents.

The bill makes two other important procedural changes. In cases involving business method patents, the burden of proof on the party seeking to show invalidity would be lowered from the current "clear and convincing evidence standard" to the "preponderance of the evidence" standard. And because we share the concern the PTO has about the lack of prior art being accessible to examiners, our bill would require an applicant for a business method patent to disclose the extent to which the applicant has searched for prior art.

Taken together, these changes will enable the PTO to do a better job when examining business method patent applications, and they will ensure that the American public has an opportunity to participate more fully in the process, which should reduce the risk of the PTO awarding any more patents on the patentably obvious.

#### PERSONAL EXPLANATION

#### HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, October 3, 2000*

Ms. WOOLSEY. Mr. Speaker, due to an event in my District, I missed roll call votes #503–505. Had I been present, I would have voted:

Roll Call #503—Yea.

Roll Call #504—Yea.

Roll Call #505—No.

Regarding H.R. 3088, I wholeheartedly agree that victims of rape should be able to learn whether their assailant could have passed on the HIV virus to them. That's why I support addressing this issue in the Violence

Against Women Act, and support women who have been raped and want to undergo an HIV test. However, H.R. 3088 could force innocent individuals to undergo HIV tests and have that information involuntarily disclosed to others. This Congress should not force the accused to undergo an HIV test until he has been proven guilty. Under this legislation, an individual who is indicted and may be able to prove his innocence would still be forced to undergo an HIV test. This bill has not been considered by the Judiciary Committee, and I believe that it strongly violates the principle that Americans are innocent until proven guilty.

#### PRIVACY COMMISSION ACT

SPEECH OF

#### HON. PATSY T. MINK

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

*Monday, October 2, 2000*

Mrs. MINK of Hawaii. Mr. Speaker, I rise today to voice my strong opposition to H.R. 4049, the Privacy Commission Act.

H.R. 4049 will establish a commission to study how best to protect individual privacy. In eighteen months this commission will provide its findings to Congress and the President.

Congress is already well aware of the ability of public and private institutions to gather and share data. While the gathering of personal data has heralded improvements in customer services and national security efforts, it threatens to undermine an individual's ability to protect their most private medical and financial information. Internationally, an individual's ability to control their most private information is considered a human right.

I am very concerned about the invasion of our private rights and that is why Congress should act now, not postpone action for another eighteen months when the commission's report is completed.

There is legislation before this body that would provide adequate protection for individual privacy. I am a cosponsor of three such bills: H.R. 1941, H.R. 2447, and H.R. 3320. These three bills will protect personal health information by limiting use and disclosure of such information, prohibit employment or health insurance discrimination based on genetic information, and amend the privacy provisions in the Gramm-Leach-Bliley Act to prohibit financial institutions from disclosing, or making use of, nonpublic personal credit information. On May 1, 2000, President Clinton announced his consumer privacy plan which he presented to Congress stating "we cannot allow new opportunities to erode old and fundamental rights."

These bills and the President's plan should be considered by the full House. Individual privacy protection greatly concerns individuals in my district. They deserve to have this issue debated in full and addressed immediately. H.R. 4049 will serve only to delay this process, and in the end inform us and the American people what is already abundantly apparent: Congress must act immediately to protect individual privacy.

#### RECOGNIZING EMMA BEATRICE TAYLOR—95 YEARS YOUNG

#### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, October 3, 2000*

Mr. TOWNS. Mr. Speaker, today I honor Emma Beatrice Taylor, a resident of Brooklyn, on her 95th birthday. I ask my colleagues assembled here today to please join me in acknowledging Mrs. Taylor's remarkable life.

On this day, October 3, 1905, here in Washington, D.C., her father, an immigrant from Africa, and her mother, an immigrant from England, were blessed with the birth of their daughter, Emma. As a young girl, Emma possessed excellence, greatness, the favor of God, love and honor, the law of kindness in tongue, morality and character. Emma married Elbert James Robinson, and their union was blessed with three beautiful daughters, including my very good friend, Delores Chainey. Mr. Speaker, all of the amazing blessings bestowed upon Emma Taylor are the result of a God-centered life.

Mr. Speaker, Emma Beatrice Taylor is more than worthy of receiving our birthday wishes, and I hope that all of my colleagues will join me today in honoring this outstanding woman.

#### HONORING THE HUMBOLDT COUNTY, CALIFORNIA BRANCH OF THE AMERICAN ASSOCIATION OF UNIVERSITY WOMEN

#### HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, October 3, 2000*

Mr. THOMPSON of California. Mr. Speaker, today I recognize the 50th anniversary of the Humboldt County, California Branch of the American Association of University Women (AAUW).

The AAUW's mission is to promote equity, lifelong education, and positive change for all women. This vision has made a significant impact on the lives of Humboldt County women.

The American Association of University Women is committed to promoting diversity, undertaking research, and providing scholarships, grants and awards. This admirable association takes action on behalf of women in the educational system. For America to prosper we must be sure to foster a learning environment that is accessible to young women and the American Association of University Women has always served as an advocate in this cause. The AAUW is one of the largest private sources of educational grants for women.

During the past 50 years the Humboldt chapter of the AAUW has benefited the community in countless ways. Thanks to community action projects, fundraising and special activities—including an educational foundation, cross cultural exchange, and book and food drives—the Humboldt Branch has provided service as well as a forum for policy discussion and community building.

Mr. Speaker, it is appropriate at this time that we acknowledge the outstanding efforts of
